## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-6, drawn to a method of deriving sequence annotation, classified in class 703, subclass 1.
- II. Claims 7 and 10-12, drawn to a method of making functional associations between two proteins, classified in class 702, subclass 20.
- III. Claim 8, drawn to a computer readable medium, classified in at least class 360, subclass 135, for example.
- IV. Claim 9, drawn to a method of characterizing a protein, classified in class 703, subclass 1.
- V. Claims 13-16, drawn to a method of identifying a target protein for pharmaceutical intervention and a system therefor, classified in class 702, subclass 20.
- VI. Claims 17-19, drawn to a method of assessing ligand interactions, classified in class 703, subclass 1.

The inventions are distinct, each from the other because of the following reasons:

The methods of Groups I-II and IV-VI can be shown to be distinct as they each have different goals and different method steps. The product of Group III can be shown to be distinct because it is not required by any of the methods. Given the nature of the inventions, applicant is directed to the Trilateral Project WM4 Report on Comparative Study on Protein 3-Dimensional (3-D) Structure Related Claims at: [www.uspto.gov/web/tws/wm4/wm4\\_3d\\_report.htm](http://www.uspto.gov/web/tws/wm4/wm4_3d_report.htm).

Art Unit: 1631

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and the necessity for non-coextensive literature searches, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marianne P. Allen whose telephone number is 703-308-0666. The examiner can normally be reached on Monday-Friday, 8:30 am - 2:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Woodward can be reached on 703-308-4028.
